Solway Calcium Chloride to Be Sprinkled on Street to Combat Dust Nuisance

City Council Decides to Procure a Supply, To Be Sold to Merchants at Half Cost Price, for Experimental Purposes—Ten Cents A Hundred For Sow Thistles—Criticism Registered Regarding Lighting Service

All the members, excepting Ald. Gibson, were present at the regular meeting of the Council on Tuesday evening.

After the reading and adoption of the minutes of last meeting, a letter was read from the Dept. of Education giving the city authority to levy an assessment of ten mills on the dollar on the lands outside the boundaries of the city of Wetaskiwin. Letter was filed.

C. H. Russell reported that the transfer of land for widening road bought from Mrs. A. R. Dickson, had been prepared. He was authorized to get title to property.

C. D. Smith wrote respecting the buying, on behalf of the former owner, of the property he is owner, Mrs. Gourlie. The terms offered were accepted by the Council.

Chief of Police Kingzett was granted his annual leave of absence from August 15th to Sept. 1st and Mr. Knott was engaged to fill the position during his absence.

A letter from the Beaver Soap and Chemicals Ltd. suggesting that Solway calcium chloride for sprinkling the streets for dust laying, was read. It

was agreed that the city procure a ton and that it be sold to merchants at half the cost price for experimental purposes.

Carl Lindt applied to exchange lots on Thews street for property on water and sewer lines. Referred to public works committee.

The Dept. of Health wrote re the sanitary conditions of the auto camp, and a poster will be posted in a prominent place on the grounds giving regulations.

W. H. Chadwick Kitcher, wrote re drilling water wells in Wetaskiwin claiming he is fully equipped to drill large holes. Matter was referred to public utilities committee to get information from Mr. Chadwick.

A recommendation was made to the city by a representative of the company from whom the new machine was purchased, which when made will give the city better results, with less gas consumption. Ald. Inglis asked that Supt. Watson submit a report on the working of the new engine, and why the steam engine is used as much as it is, and this met with the approval of the Council.

Supt. Watson was empowered to procure about 200 feet of piping and move derrick and compressor to O.P. R. well and test same for water purposes.

N. Paltow applied for water connection to cabinet shop on Lorne street. Granted, if a suitable frost-proof place is provided for meter.

Building permits were granted to the Swedish Mission Church for new building on "Pearce" street east; to Mrs. Albena Freeman for residence, and to Dr. Gulekson for garage.

The public works committee was instructed to dispose of earth from excavation from the new Swedish Mission church.

Chief Kingzett submitted a report for the month of July, which was received and adopted.

The following accounts were passed for payment: General, \$193.40; electric, \$35.88; water, \$4.75; supplementary, \$54.02.

Ben Jackson offered to purchase three lots on Andrus street for \$100 cash. Offer was accepted.

Carl Wallin wrote complaining about the unsteadiness of the light system in the city. This was referred to the Utilities Committee for investigation.

Ald. Inglis brought up the question of the feasibility of closing off the water in the evenings, as it was a great inconvenience and people were reserving it in large quantities which was thrown away in the mornings.

Supt. Watson will be asked to keep the water turned on Saturday evenings until midnight.

The offer of Wm. McCallum to purchase lot on east side for \$60 was accepted.

Mayor Montgomery brought up the matter of destroying the weeds and sow thistles in the city and it was agreed that the Public Works Committee offer the boys in town 10c a hundred for all the sow thistles they can turn in, and that Chief Kingzett have the matter in hand.

Bylaw No. 617, providing for the regulation of traffic was further considered in committee of the whole, and was finally passed.

Bylaws respecting the sale of property to Mrs. Anna Mattson, Mrs. Alvin Frieman, Eric Peterson, Mrs. Clara A. Parker and Nels Nelson, were read three times and finally passed.

Bylaw No. 623, providing for the borrowing of a sum up to \$1000 of concrete a portion of the north side of Pearce West was read and provisionally passed.

Bylaw No. 624, empowering the borrowing of a sum of \$700 to construct a concrete sidewalk on a portion of the south side of Pearce street East, was read and provisionally passed.

Meeting adjourned.

MANY WETASKIWIN STUDENTS NOW TEACHERS

The list of the students who graduated from the Camrose Normal school recently was published in the Camrose Canadian last week, and among the names we note the following students, who formerly attended the Wetaskiwin high school:

First Class—Verna A. Allen, Beth A. Watson, Ruth L. Schmidt, Herman E. B. Thomas and Wm. J. Morris.

Second Class—Dorothy E. Albers, Elsie L. Farnham, Irene G. Pees, Louise A. Wilberg, Elsie Cottrell, Grace S. Stewart.

The two students who attended the Calgary Normal, Miss Vivian Richards and Miss Arletta Kadlec, were successful.

Town Topics

Mrs. J. W. McAskill of Treherne, Man., is visiting Mrs. W. J. Burroughs.

Rev. P. C. McCrae will occupy the pulpit of St. Andrew's church, Calgary, for the month of August.

Wm. Mellett, was confined to the house for a few days of the past week with a mild attack of the flu.

Rev. P. C. Wade, Vicar of Immanuel church, will take charge of the services at the Cathedral, Edmonton, during the month of August.

The Norwegian Lutheran Ladies' Aid will meet at the home of Mrs. L. Pelland, 6 miles south-east of town on Friday, August 10, at 2 p.m.

C. H. Russell expects to leave in a few days on his holidays which will be spent at his old home at Exeter, Ont., and at other places in the east.

Mr. and Mrs. Victor Johnson returned last week from spending about three weeks' holiday at Banff and other places in the mountains. They went down by motor.

Mr. and Mrs. A. J. Millie returned home a few days ago from a visit at the home of their son, Alvin, at Nelson, B.C. They report having had a very pleasant holiday.

Duncan Armstrong, who has been in the "first of the month" to the building next the telephone office, Stewart Pools will continue in the old stand, on McDonald street.

Mr. and Mrs. C. D. Compton and family of Huxley, and Mrs. Stewart, are guests of Mr. and Mrs. C. E. Compton for a few days, and will then go to Pigeon Lake for a couple of weeks.

The many friends of Martin Emberton who was injured by a tractor and disc last week, are glad to learn that he is convalescing nicely, and expects to be able to leave the Wetaskiwin hospital in a few days.

The friends of Alf. Ellis regret to learn that he had his hand caught in some machinery at the elevator on Wednesday last, and had it badly lacerated. Since that time it has been in a sling, but it will only be a few days before Mr. Ellis expects to have the use of it again.

Mayor Montgomery received a few days ago a little package of wheat which, as the printing read, was a portion of the eighty-millionth bushel of wheat which arrived for export through the port of Vancouver, season 1927-28. The sample weighed two ounces and was sent out with the compliments of The Vancouver Sun.

The friends of Mrs. Thomas Willows were pleased to see her attending church on Sunday last. Although she celebrated the eighty-seventh anniversary of her birthday a week ago she is feeling quite well, and recently travelled along from Idaho, where she spent the winter, to her old home at Dorset, B.C. She is spending a few days in Wetaskiwin visiting at the home of Mr. and Mrs. W. Mellett.

LADIES, GET MUSCLES READY FOR NAIL DRIVING CONTEST

One of the most interesting platform events at the big Sports Meet here on August 15th will be the Nail Driving Contest for ladies, for which three valuable prizes will be given. The fair sex, who are asked to bring their own hammers, will be called upon to drive two each of 2-inch, 3-inch and 4-inch nails into a timber placed on trestles at a convenient height. Speed and neatness in execution will be the deciding factors in this novel contest. There will also be a fifty yard race for married ladies on the program.

ARMED THUGS STAGE RAID AT WINNIPEG

Winnipeg, July 30.—Five bandits, armed with revolvers and sawed-off shotguns, held up two messengers of the Canadian Bank of Commerce here today. The robbers escaped in a automobile bearing a United States license plate with money scattered believed to have contained between \$25,000 and \$30,000.

Weed Control in Alberta

(By Clyde C. Gillette, R.R. 2 Strathcona, member of Alberta Advisory Weed Board.)

Anyone who has made only a passing study of the subject realizes that the control of noxious weeds is one of the most serious problems facing the province of Alberta today. To say there is no menace from weeds, to say that everything is being done that can be done, would be misleading and far from the truth. We have always had weeds, and possibly always will have them, but the damage they do is to a great extent controllable and by a united effort on the part of Federal and Provincial governments, municipalities and individuals, there is no doubt but that the situation can be met and the loss reduced to a minimum.

The estimated loss due to noxious weeds in Alberta in 1927 was put at \$18,000,000 by the Field Crops Commissioner. Were the total losses for the whole Dominion put in figures, the amount would probably exceed \$100,000,000. The annual loss from forest fires over which we have so much concern, pales into insignificance when compared with these appalling losses due to weeds. The loss due to forest fires in 1927 was estimated to be less than \$17,000,000.

It is not the purpose of this article to describe methods of eradication or identification of our worst enemies. This information is contained in a bulletin issued by the Alberta Department of Agriculture, "Alberta's Weed Problem," a copy of which will be sent free to any address in Alberta on applying by letter or otherwise to the Field Crops branch, Department of Agriculture, Edmonton.

The purpose of this article is to outline the organization of the forces directing weed control work in the province.

The work of directing weed control, and the administration of the "Noxious Weeds Act," comes under the Department of Agriculture, by the Field Crops branch. This branch is in charge of a commissioner resident in the province.

Commissioners and responsible staff are appointed by the minister, are sixteen Field Supervisors. These men have definitely stated districts and their duties are, in part, to supervise weed control work in their districts, to advise farmers and others as to the best means of eradication and identification of weeds, and to supervise the work of municipal or L. D. weed inspectors. They are in the field from June 1 to October 31, or later, if required. These supervisors are carefully chosen, specially trained men. Their position is a responsible one and besides a good knowledge of farming and weed eradication methods, they must be capable of making sound judgment, as they are frequently called upon to adjudicate when disputes arise between land owners and weed inspectors. The municipal and L. D. weed inspectors are what might be termed the junior members of the weed control staff. These men are responsible to the municipal council and in L. D.'s are responsible to the field supervisor. Their duties are similar to those of the supervisors, but on account of the relatively small areas over which they operate, they do most of the detailed inspection work. Stated briefly, there is at the disposal of farmers and others (Continued on Page 4)

SEED EXPERTS TO VISIT NELS LINDEN'S FARM

Mr. L. H. Newman, Dominion Cerealist, of the Central Experimental Farm, Ottawa, and Mr. Peter Stewart, Secretary of the Canadian Seed Growers' Association, Ottawa, will be at the farm of Mr. Nels Linden, Sec. 23, Tp. 47, Rge. 23, W. 4th, near Wynne, on Saturday, August 18th, 1928. These gentlemen, assisted by members of the staff of the Dominion Experimental Station, Lacombe, will be pleased to discuss problems in connection with the production of registered seed grain. Mr. Linden is well known as one of the outstanding seed growers of the province and a visit to his farm on the above date will be well worth while. Those who are unable to visit the Experimental Station, Lacombe, for their field day on August 17th, should endeavor to take advantage of this opportunity. Demonstrations and discussion will commence at 2 o'clock.

NEW WETASKIWIN CHURCH NOW BEING ERRECTED

Some of the material is now on the ground for a new church which will be erected this summer on the property recently purchased on Pearce street, east, opposite the Court House, by the congregation of the Swedish Mission church. The work of excavating for the basement and the building will be rushed to completion as soon as possible.

EXAM. RESULTS ARE BEING RECEIVED

The results of the high school examinations are being received this week, but as the information is mailed by the department direct to the students, it is impossible for us to give a list of the successful students, as many of them reside in the country districts.

We are informed that the following students who attended Grade XII, succeeded in getting the units they wrote on: Kenneth Brown, Morgan French, Frank Morrison, Robt. Thomas, Clara Williamson. Doris Hanna was confined in one subject and Earl Mellett in two. Norma Nelson and Helen McArthur, who wrote on a few Grade XII subjects were also successful.

The Swedish Lutheran Ladies' Aid will meet at the home of Mrs. A. Engblom on August 8th, at 2:30 o'clock.

Mr. Taylor, of the Grey Goose Cafe, who has been on a business trip to San Francisco, returned home a few days ago.

Mr. and Mrs. Harry Cook returned home the fore part of the week from spending their holidays at different places at the coast.

Oscar Ostrom of Yakk, B.C., who spent a week visiting his father and sister, Mrs. Brookfield, left on Monday en route for home.

Mrs. Gordon Pettigrew of Millet, was a weekend visitor at the home of her parents, Mr. and Mrs. A. Gale and sister, Mrs. Earl Berry.

Mr. and Mrs. L. B. Chaffee left on Tuesday on a motor trip to Banff, Nelson and other places in the mountains, where they will spend their vacation.

Mr. and Mrs. T. A. Stewart and family of Three Rivers, returned home Saturday, after spending two weeks holiday in Wetaskiwin visiting friends and relatives.

Miss Ellen Gale of Edmonton, returned home Wednesday, after spending a few days holidaying with her parents, Mr. and Mrs. A. Gale, and sister, Mrs. Earl Berry.

Mrs. Harry Sharlow and Mr. A. Gale, representing the lodges at Wetaskiwin, were among those who attended the grand lodge of the L.O.L. held in Edmonton last week.

Rev. C. C. Janzon and family, of Nelson, B.C., and formerly of Leduc, paid a flying visit to Rev. and Mrs. Appel on Friday, stopping over from 8:49 a.m. to the 2:21 p.m. train going south. Rev. Janzon was present and officiated at the dedication of the Missouri Synod Lutheran church at Lethbridge on Sunday.

A very enjoyable time was spent at the home of Mrs. Eckberg, south of Wetaskiwin, on Friday last, when a number of her lady friends of the city assembled in honor of the anniversary of her birthday. The gathering was entirely a surprise, but, nevertheless, a delightful time was spent. Mrs. Eckberg was presented with a number of nice presents, as well as a beautiful bouquet of flowers.

Mr. Philip Fleming, Western field man for the Canadian Jersey Cattle Club, spent a few days in Wetaskiwin, where he and Mr. Pickard were successful in organizing a Jersey Heifer Club in Wetaskiwin district. Mr. Fleming and Mr. Pickard left Saturday for Calgary, where they will spend a day or two on field work. They will then go on to Regina where they will pick up the heifers for the Wetaskiwin Heifer Club.

FARMERS' WEEK AT EXPERIMENTAL STATION, LACOMBE

On Monday, Tuesday, Wednesday and Thursday, Aug. 20 to 23, a four-day course of lectures and practical demonstrations on Live Stock, Field Crops, Poultry, Horticulture and Beekeeping will be given at the Dominion Experimental Station, Lacombe. Experts prominent in each line of work from the University at Edmonton, the Provincial Department of Agriculture, Canadian Pacific Railway Department of Natural Resources and the Dominion Live Stock Branch will assist the staff of the Experimental Station. Evening addresses will be given by prominent speakers. A full program will appear in this paper next week.

A Civil War veteran had spent a week at a New York hotel. When he went to pay his bill the clerk asked: "What was your rank?" "Oh, just a private," the old soldier replied.

"Well, I won't charge you anything. You are the first private I ever met."

Prizes for Big Sports Day Here on August 15th Are Being Placed on Display

Massive Cups are Very Attractive—Nearly Fifty Medals and Dozens of Other Prizes—Local Youthful Athletes Are Urged to Attend Work-outs Tomorrow, Monday, and Wednesday—Entries Close Next Week

The prizes for the big Sports Day here on Wednesday, August 15, will be displayed after today in the windows of the Banner Groceria, and the array is one of distinct class. The silver cups which go to the winners of the boys and girls aggregate championships are beauties. They are fifteen and one-half inches high and measure fourteen and one-half inches across from arm to arm, with the bowl about a foot in width. They bear the inscriptions "Alberta Track and Field Championships, Grand Aggregate." They were presented by Curt Smith, of the Driford and Loyal Order of Moose No. 1555. The silver cup presented by The Times for the five-mile run stands 11½ inches high and is about 6 inches in width. Forty-eight gold, silver and bronze medals, individual championship prizes, are included in the display, with a large number of very beautiful as well as useful prizes donated by local merchants for the several events not on the championship program.

The championship events, open to boys and girls under 18 years of age, are the official junior championships of the Alberta Branch of the A.A.U. of C. Registration forms and entry blanks may be secured from B. W. Bellamy, at The Times. There is no limit. Entries must be filed before Saturday, August 11.

Boys and girls of Wetaskiwin and district between the ages of fourteen and eighteen are urged to turn out to the practice to be held at the athletic grounds tomorrow, Monday and Wednesday evenings at 7 o'clock sharp. Newcomers will be welcome.

Some idea of the magnitude of the Meet is shown in the fact that the services of about forty officials will be required. These were tentatively selected at a meeting of the committee on Tuesday evening. Half of this number will be visitors to the city on the occasion, including the following: Hector Lang, M.P.-elect, Medicine Hat, a former president of the Alberta Branch of the Alberta Branch of the Amateur Athletic Union of Canada; Lyle Holland, Cardston, president of that town; J. F. Hamilton, B.A., Sec. Lethbridge; P. H. Thibault, Stettin, inspector of schools; R. E. Ansley, Killam; and the following of Edmonton: Stanley Glover, sr., father of one of Canada's team at the Olympic Games at Amsterdam; J. A. Kinney, commissioner on the Workmen's Compensation Board; Dr. F. W. Crang, member of the school board; R. S. McKenzie, chairman of the Boys' Work Board; C. H. Croft, Governor of the Alberta Branch; R. J. Gillis, A. C. Woodard, and W. T. Tait, an athletic veteran.

Gwynne failed to cop the U.F.A. baseball championship, but that burg has always boasted a sporting good football team. During the summer here some excellent talent was developed in the local league, but the Wetaskiwin picked team will have their work cut out for them in pulling a win. In many respects football is more interesting than the "hard ball" game, and there'll be oodles of excitement.

The tug-of-war between the Elks and Moose lodges will be another thriller. Merrier and Kelley are the captains of the respective teams, and while it is conceded that the boys from the new hall will carry the big

share of the "beef," the brawn and muscle of the farming community will loom large in the make-up of their adversaries.

The contingent from Cardston, in the far south, will include Billy Mills, all-round athlete, Bertha Hansen, heralded as a sensation in the sprint and Alberta Manyfingers, distance runner. They will arrive here on the day before the games, so as to be in the pink of condition on the 15th.

With five entries already received, the five-mile run will prove one of the most interesting competitions ever witnessed in these parts, and not only that, but the contestants come from all corners of the province: Abrahams, of Bruderheim; Whybrow, of Killam; Connors, of Bellevue; McArthur, of Medicine Hat; and Manyfingers, of Cardston.

Kenneth and Elsie Irish, of Loughheed, are among the latest to apply for entry forms. The parents are well-known here, having visited Wetaskiwin on different occasions. Camrose will probably be represented by F. A. Jackson in a number of events.

Barnyard Golf, otherwise known as Cowpasture Billiards, will have its place, with Elsie Switzer in charge. It is the self-same horseshoe game which created such a furore at the carnival. Ald. Inglis will have charge of the "juice joint," so there'll be refreshments aplenty.

Special quarters will be fitted up at the grounds for the contestants, and the local Women's Institute will give attention to every want of the young ladies who will be competing. Light lunch will be served at the W.I. rooms about 11 o'clock on the morning of the Meet, and in many ways the W.I. will attend to the comfort of the gentler sex who will visit us on the occasion.

The visiting athletes and officials will be guests at a banquet being tendered by the Wetaskiwin Board of Trade at The Pal banquet hall, in the early evening, when the championship prizes will be presented.

PAYING \$34,000,000 TO POOL MEMBERS

Winnipeg, July 28.—An interim payment of more than \$34,000,000 is being made today by members of the Canadian wheat pool in the western provinces. In practically every district of Saskatchewan, Manitoba and Alberta pool members will share in the distribution, which is the largest interim payment ever made by the wheat pool.

Today's payment is the second interim one for the 1927-28 crop, the first having been made on March 10.

"There seems to be general satisfaction among our members as to the manner in which the various steps in the problem were handled and the average price obtained for their wheat," stated E. B. Ramsay, manager of the central selling agency, Winnipeg, in announcing the payment.

On contract grades the payment ranges from 16 cents to 25 cents per bushel; tough grades from 13½ cents to 23½ cents; numbers 4 to 6, 11 to 15½ cents; and on durums, 11½ cents to 13½ cents per bushel, according to grade.

"Am yo' daughter happily married, Mrs. Johnson?" "She sho' is. She done gotta husband dat's skeered to death of her."

Splendid Western Crop Is Nearly Ready for Cutting

Winnipeg, July 30.—Present reports from districts served by the Canadian National Inueg would indicate that Western Canada is about to commence harvesting one of the greatest crops in the history of the country. While a few local districts report showers during the past week the weather has generally been fair and warm with a result that all grain has made excellent progress towards maturity. Many districts throughout the west report rye cutting as general and a number of districts in north and central Manitoba will commence cutting barley the first week in August.

With the exception of a small area in the North Battleford, Saskatchewan, district, which reports slight damage from hail, there has been no losses from any source during the past week, and notwithstanding there has been excessive moisture in some districts previously with the hot

weather of the past week which has created some fear that rust would develop, there does not seem to be any effects at the present time from this menace in any part of the country.

Harvesting wheat is expected to commence in Manitoba about the 12th to 15th of August, with Saskatchewan and Alberta from five to 10 days later, and while interest is generally centred on the prospects of the wheat crop, the coarse grain crop also promises to exceed previous years by a large margin.

With optimism running high among the farmers throughout the country, with the excellent prospects for harvesting a bumper crop they are now considering the problem of help to handle the crop, and in many districts combination harvesters are being purchased which will eliminate the hired-help problem to some extent.

New Teachers Are Engaged to Fill the School Vacancies

The vacancies on the Wetaskiwin teaching staff have all been filled, and the following will have charge of the high school upon the opening of the fall term:

Principal, Alex. McLennan, B.A., of Lucknow, Ont.

Mr. Fletcher, B.A., of Edmonton.

Miss Wood, B.A., of Hardisty, and Miss Kennedy, B.A.

Mr. Kulak, who was principal of the King Edward school last term, has been engaged to teach Grade VIII, and the appointment of Mr. Churchill as teacher of Grade VII, and principal of the King Edward school has been accepted.

Miss Christie of Millet, has been engaged as primary teacher for the King Edward school as successor to Miss Grant.

ALBERTA GOVT READY
TO AID OTTAWA APPEAL

Ottawa, July 24.—It is reported on good authority here that the Alberta government has decided to facilitate the appeal to the Privy Council in regard to the schools question—the great obstacle to the agreement for returning to the province its natural resources. The Saskatchewan government, it is said, is also likely to become a party to the same appeal though, in the case of either government, a direct personal intervention is not necessary. Rather, they may agree to back up a private individual who may become an appellant party in the issue.

The matter is regarded as of very great importance. The Dominion government has affirmed its willingness to return to the prairie provinces their lands, forests, for which the demand has been long, but it is also desirous of perpetuating the school systems as they now exist and which largely derive support from the school lands, part of the natural resources under federal administration.

This snag was encountered in the Alberta case when an agreement with the province had been reached when concurrent legislation to ratify it had been prepared, was in the legislature and had reached its final stages. The federal legislation was then suspended pending a reference to the Supreme Court as to the constitutionality of the educational provisions of the Autonomy Act. The court here upheld the provisions in question, whereupon, in what was described as the interest of finality, the Dominion government sought to appeal to the privy council. Leave by that body was not granted on the ground that the government was really inscribing an appeal from a judgment in its own favor, a most anomalous procedure. The case, however, was struck off the lists. It is still pending.

Meanwhile for many months, there has been a discussion of ways and means to get on with the appeal and have it finally determined and thus pave the way for a return of the provincial domain. It is now reported that the matter is about decided, that the necessary arrangements will be made, and that, having a common interest, the Saskatchewan government will also be a probable party to the litigation.

AMERICAN HOGS
CAUSED CHOLERA

That some hogs imported from the American side through Kingsgate, were responsible for the spread of hog cholera in Alberta, was the opinion of H. E. G. H. Scholefield, vice-president of the U.F.A., who has just returned to Calgary. He was making some reports to the government regarding the finding of the committee deputed to inquire into the Alberta hog industry, of which he was chairman.

Mr. Scholefield, previous to his visit to Edmonton, had been on a trip to Spokane, Seattle, Tacoma, Portland and other American cities, accompanied by Prof. S. G. Carlyle, livestock commissioner for Alberta, and A. A. MacMillan, of the federal animal husbandry branch.

Mr. Scholefield stated that hogs imported were not properly inoculated, many being inoculated only once, instead of twice as required. In any event, he said, they could be carriers of the disease without being themselves infected.

A RAKE-OFF

A colored man went to his pastor and him a letter to the Lord, which ran: "Please send six poor darkey \$50 right away." The pastor, a kind-hearted man, called together some of his friends and said: "This poor fellow has so much faith in the Lord that he expects Him to send the \$50 right away. We shouldn't let him be disappointed. Let's make a collection for him." This was done and \$42 was contributed, which sum was sent to the ingenious petitioner.

Next day the colored man handed the pastor another letter. This one ran: "Dear Lord: De next time You send dis darkey money, don't send it through no parson, send it to me direct."

A tramp rang a doctor's doorbell, and asked the pretty woman who opened the door if she would be so kind to ask the doctor if he had a pair of old trousers he would kindly give away.

"Yes, doctor," said the smiling young woman, and the tramp beat a hasty retreat.

Walter: "How's the head-cheese?"
Mabel: "Oh, he's all right."

QUACKS ARE MEANEST
OF ALL CONFIDENCE MEN

All confidence men do not deal in gold bricks, remarks the St. Thomas Times Journal. There are, for instance, the quacks, those who hold out the allurements of complete restoration to health to those who are suffering from real or imaginary ills. These are the meanest of all confidence men. They trade on the strongest impulse of human nature—the desire of the diseased to get well.

Any man who will hold a baseless hope to such sufferers is the best of all deceivers, whether gay or grave. Yet there are many such quacks, or fakers doing business throughout the world and they are reaping a rich reward.

SUMMER DIARRHOEA

Every year there occurs an appalling number of deaths from diarrhoea. In Canada, in the year 1926, there occurred 4,314 deaths of infants under one year of age as a result of this condition.

The best and surest protection against such a condition is breast-feeding. Wherever deaths are investigated, it is found that most of the cases occur amongst infants who are artificially fed. There are many other good reasons why infants should be fed on the natural food, but the one reason that it protects against diarrhoea is sufficient to make every mother realize her duty in this matter.

The baby who is so unfortunate as to be deprived of his natural food must receive every care. He should be under the regular supervision of the family physician. He should be fed according to the physician's instructions, and no changes should be made in his feeding unless they are ordered by the physician.

The baby must be dressed according to the temperature, not the time of year, in order to protect him from sudden changes of temperature, against which he must be safeguarded. Diarrhoea in a young child is a very serious condition. When it occurs the family physician should be called at once. Thinking that the diarrhoea was caused by teething or some other condition has been responsible for delays in securing prompt treatment. Such delays may cost the baby his life.

Questions concerning health, addressed to the Canadian Medical Association, 184 College Street, Toronto, will be answered by letter. Questions as to diagnosis and treatment will not be answered.

DR. M. A. LANGSNER
PROVES HYPNOTIC SKILL

Edmonton, July 26.—Before an audience composed of scientists, police and newspapermen, probably the most skeptical gathering that was ever assembled in Edmonton for such an affair, Dr. Maximilian A. Langsner, M.L.L.C., the distinguished Viennese criminologist who assisted the Alberta provincial police in solving the mystery of the Mannville murders on Wednesday afternoon demonstrated his powers of thought receptance and hypnotism, which he applies to his investigations of crime.

Undoubtedly the most astonishing feat performed by the famous scientist was that of subduing two thoroughly enraged fighting cocks. These birds were procured from an Edmonton breeder and were not seen by Dr. Langsner until they were taken from their sacks and placed upon the table. Immediately they began fighting with a fury which would have driven a Cuban wild with joy.

Holding the birds by the wings in order to keep them on the table, Dr. Langsner concentrated his will power on them with such intensity that his face paled noticeably. Slowly, the two cocks became quiet, their heads dropped and their respiration was the only evidence that they were alive. Then, placing the birds side by side, Dr. Langsner, with a snap of his fingers, released them from the hypnotic state with a snap of his fingers. Leaping to their feet the cocks at once began to fight again.

DOG BITES CAT, CAT
SCRATCHES GIRL, SHE DIES

Toronto, July 27.—Four-year-old Lorine Boyau, of Windsor, who died in convulsions here on Wednesday last died from the scratch of a mad cat. The fact was established today at the provincial laboratories when an analysis of the little girl's brain disclosed rabies. The little tot was clawed in the face two months ago by a cat which it is believed, had previously been bitten by one of many infected dogs in the neighborhood.

BLESSED ARE THE HOME-MAKERS

How blessed are the homemakers, whose job it is to stay
And do the tiny trifling tasks day after dreary day;
Who get up coals, and sweep the steps, and light the kitchen fire,
Making a lyric of their lives to suit an angel's lyre.

Yes, blessed are those royal souls who work on bedded knee,
Or polish taps, or mangle clothes, or make a cup of tea;
Who rise up early every day, and work in any weather,
And all to be a homemaker and keep a home together.—Fay Inchfawn.

You would not be ashamed of your stationery if it had been printed at The Times office.

100 TRAINED BRITISHERS
ARE COMING WEST

Montreal, July 27.—Moving under the auspices of the department of colonization development, Canadian Pacific Railway, approximately 100 young men trained at farms at Brandon and Clayton, England, operated by the ministry of labor of the British government, will arrive at Quebec on the Canadian steamship Montcalm on Saturday.

Equipped with adequate elementary knowledge of Western Canadian agricultural methods, these young men are passing through channels of the railway's colonization department into farm employment with the co-operation of the Land Settlement Board of the Dominion government.

Upon reaching the west the party will be divided into groups for distribution from Edmonton, Calgary, Saskatoon, Regina and Prince Albert into farm positions which have been arranged for them. Two of the party who received the highest number of marks at either camp for proficiency and general conduct, were recipients of one year's money award offered by President Beatty. They will, in addition, be given one year's employment at the Canadian Pacific supply farm at Strathmore, Alberta, at current wages.

SHORTAGE OF CHICKS
REPORTED

Winnipeg, July 29.—Officials in charge of the Alberta Government poultry plant at Oliver, Alberta, report a shortage of chicks this year. Over ten thousand chicks were distributed, yet the demand has been far in excess of the supply. White Leghorns, Barred Rocks and White Wyandottes are among the breeds represented in the shipments. Over three thousand chicks are being reared on the farm, and in view of their increasing demand, a beginning is being made this year with turkeys.

Heart Palpitated
Nerves Were Bad
Had Dizzy Spells

Palpitation of the heart is one of the most common of all heart troubles, and many people are kept in a state of morbid fear of death, become weak, worn and miserable, have weak and dizzy spells, their nerves become unstrung and they cannot sleep.

Mrs. John Wahason, Manitowaning, Ont., writes:—"I was very poorly, having palpitation of the heart, and my nerves were so bad I could not stand the least noise. I also had dizzy spells and felt as if I were going to drop on the floor any moment. I saw an advertisement of

so I determined to give them a trial. I got a box and finding them doing me good I continued until I had taken five boxes and found complete relief."

Milburn's Heart and Nerve Pills are \$60 a box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

McCormick-Deering

Combines the Best Features of the World's Greatest BINDERS With Added Improvements

The Best Features of Both the McCormick and Deering are Incorporated in This New Binder

You are beginning the harvest of your year's work, and the results are going to constitute your living until the next season rolls around. It is unwise economy to depend upon an old worn-out binder that may break down some sunny afternoon when you are just about half through.

Start work this year with a new McCormick-Deering binder and learn what a big improvement has been made in these machines since you bought your last harvester. The new McCormick-Deering is a distinct step ahead in binder manufacture. It is fitted with ball and roller bearings at every point of excessive wear, and is equipped with improved features of construction that make the harvesting of your crop a real pleasure as well as an economy, when you consider the time and grain you will save.

Farmers tell us the new McCormick-Deering is the lightest draft binder they have ever used.

OUR 10-FT. TRACTOR BINDERS

Make it possible for one man to cut more grain than two men with 8 ft. horse-drawn binders.

8,000,000 BRITISH ON POVERTY LINE

London, England, July 12.—Nearly 8,000,000 people, or about 15 per cent of the population of the United Kingdom are on the poverty line, according to the latest reports published by the ministry of labor.

The army of unemployed has been growing steadily since the end of May. The number of those receiving unemployment doles amounted June 11 to 1,149,000, and on July 2 reached 1,218,000.

These figures are alarming. A casual observer reading the board of trade reports will see that exports have increased substantially since last year, but economists point out that this increase is far from satisfactory because the luxuries trade has been booming while the staple industries have been losing ground daily.

The coal industry is the main sufferer. For the week ending June 30 the output had fallen to 4,437,000 tons, or 500,000 tons less than in the corresponding period last year. Other important industries, such as boots and shoes, textiles, jute, tin plate and shipbuilding, also show steadily decreasing returns.

There is a vicious circle out of which the country does not seem able to emerge. The increase of unemployment has reduced considerably the purchasing power of individuals and the main manufacturers of the country cannot dispose of their goods because a large section of the nation cannot afford to buy them.

RAILWAYS TO RETURN BRITISH HARVESTERS

Edmonton, July 27.—That he will insist upon the transportation companies taking care of British harvesters who may not desire to remain in the country when this working period is over, and have not obtained other employment was stated by Hon. Robert Forke, Minister of Immigration and Colonization at Ottawa, when seen at a local hotel on Thursday.

He has arrived here to join the Board of Trade party that will leave Friday for a week's tour of the Peace River country.

Arrangements will have to be made with the railway companies to ensure the return of harvesters who do not wish to remain in Canada, said the minister. He has already communicated that view to his department at Ottawa. In his opinion, these harvesters should be taken back to the Old Country free or at a very low rate if it is found that they cannot get future employment here.

"My department is now trying to find out from the different provinces just what extra help for harvesting will be required," said Mr. Forke. "It has been stated at Winnipeg that possibly 70,000 extra helpers will be needed this season, and that supply is not visible at any source outside of the British Empire."

"I see you have a sign in your store, 'We aim to please,'" remarked the irritated customer. "Certainly," replied the proprietor, "that is our motto."

"Well," retorted the I.C., "you ought to take a little time off for target practice."

OSHAWA DAILY TIMES ISSUES SPECIAL EDITION

This office has been favored with a special edition of the Oshawa Daily Times, Oshawa, Ontario, issued on July 7th, setting forth the general industrial development of that city during the past fifty years, and in particular the advance the paper has made during that time. With the apt caption of "Waste off to the past, costs off to the future," the Times says that it is a far cry from the first issue some fifty years ago which was printed on a Washington hand press, to the issue of July 7th which commemorated the erection of a modern new building and the installation of a complete new press equipment which is the last word in modern printing machinery, which in itself is a marvel of mechanical development.

The people of Canada are more or less acquainted with the name of Oshawa, as most of the automobiles are either built or assembled there, and the line "F.O.B. Oshawa, freight and taxes extra" is something that everybody reads almost daily.

However it is pleasing to receive such an ambitious edition of a paper printed in that city and to read of its achievement which in many ways is a replica of papers now being printed in all large centres of the dominion. Publishing a daily paper is no small job, and the Oshawa boys are to be congratulated on their enterprise and success.

RED DEER FAIR BREAKS RECORDS

Red Deer, July 27.—Red Deer's great annual fair made history in many ways this year as well as being the best fair ever seen here. The attendance on Tuesday, the second day, smashed all records, between six and seven thousand people being on the grounds. Grandstand receipts for the day were also great and the grandstand was packed to capacity. Many people being unable to get seats.

HYDRO POWER FOR ALBERTA IS INSPECTED

Alberta's great wealth in "white coal" was displayed Sunday to a party of officials and businessmen from points as far distant as Edmonton and Lethbridge, with Calgary and a number of other cities and towns well represented.

The plants of the Calgary Power Company at Seebe and the site of the huge Ghost River project, were inspected by the visitors, conducted by Power Company officials. Gathering in Calgary Saturday night, the party 70 in number, travelled to Banff where a morning was spent in golf and swimming, preceeding to the Seebe and Ghost River plants Sunday afternoon, returning to Calgary in the evening.

To most of the visitors, many of whom were officials of towns and cities already powered by the Calgary Company, the immensity of the plants and the volume of power developed were in the nature of a revelation. The policy of the company as explained by officials includes development of still more hydro power within the province. Already power lines of the company are running to a number of points in the south, Calgary and Lethbridge being the largest places supplied. Lines running into Central and Northern Alberta are connected up with a number of towns, including Red Deer. Electrification of farms is another project being taken up and side lines link up a number of individual isolated consumers.

The Ghost River project, apart from yielding many thousand horse power, will provide Calgary with an ideal summer lake resort. Damming of the Bow river at the junction of the Ghost will back up the water and form a lake approximately nine miles long. The power plant itself will be situated in the centre of the stream where the flood reaches its height while the spectacular spillway will be located at the southern end near the railway tracks.

So far between 70 and 80 men are employed. When further progress is made nearly 300 will be working. It is planned at present to complete construction by September, 1929.

SUMMER COMPLAINT Nearly Lost Her Little Girl

Mrs. Theodore Rivett, Anthony, Ont., writes:—"Last Fall I nearly lost my little girl as she was suffering terribly from summer complaint. She became very thin and weak; had no appetite, and could hardly walk across the room without falling down. At last my mother advised me to get a bottle of

and after she had taken a few doses she was relieved. I also found it a grand remedy for cramps, and would not be without a bottle of it in the house for anything."

Has been on the market for over 80 years; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton.)

Alberta Exhibits for American Fairs. Exhibits of agricultural products and natural resources from Alberta will again be shown this season at a number of the larger fairs throughout the Central States by the publicity branch of the Department of Agriculture. Reports from Canadian Government agents indicate that a great deal of interest in Alberta has been shown by farmers throughout the territory visited in this way last year and that immigration to the province has been materially assisted by the favorable impression created by these exhibits.

The fairs at which the Alberta display will appear during August and September include the following: Mississippi Valley Fair and Exposition, Davenport, Iowa; Hawkeye Fair and Exposition, Port Dodge, Iowa; Blue Earth County Fair, Mankato, Minn.; Freshborn County Fair, Albert Lea, Minn.; Interstate Fair, Le Crosse, Wis.; Missouri State Fair, Sedalia, Mo.; North Central Kansas Free Fair, Belleville, Kan.; Brown County Tri-county Fair, Horton, Kan.; Kansas Free Fair, Topeka, Kan., and Kansas State Fair, Hutchinson, Kan. Edmonton Board of Trade Visits Peace River.

Approximately one hundred members of the Edmonton Board of Trade left on Friday for a week's tour of the Peace River country. Travelling by train, motor car and steamboat, the party will see the northland at its best as far west as Hudson's Hope. Included in those making the trip are Hon. Robert Forke, Minister of Immigration and Colonization, Ottawa; F. W. Doherty, president of the Edmonton Board of Trade, Hon. V. W. Smith, Minister of Railways and Telegraphs, S. C. Root, American Consul, Calgary; R. J. Hutchings, Calgary, vice-president of the Canadian Manufacturers' Association; W. G. Manders, western freight traffic manager for the C.N.R.; George B. Hewwood, deputy attorney general for Alberta, and A. Halkett, general superintendent of the Alberta district for the C.P.R.

Lord Rodney Signs Wheat Pool Contract

Following the example of H.R.H. the Prince of Wales, whose wheat crop from his ranch west of High River is marketed through the Alberta Wheat Pool, Lord Rodney, who farms a large acreage near Fort Saskatchewan, has recently signed one of the new pool contracts. Another British peer who is a member of the Alberta Wheat Pool is the Duke of Sutherland whose seven-thousand-acre farm at Brooks has been under contract for a number of years.

C.P.R. Land Sales Greatly Increased

Sales of farm land in Alberta by the land department of the Canadian Pacific Railway during the first six months of 1928 show a remarkable increase over figures for the corresponding period of last year. Total sales in the three prairie provinces for the six months' period are given as follows: 1227, 166,283 acres; 1928, 358,983 acres. Of the latter amount 212,000 acres are in Alberta, 115,000 in Saskatchewan and 31,983 acres in Manitoba.

Provincial Health Exhibits Attracted Attention

Among the exhibits which attracted a great many visitors at the Edmonton Exhibition were those depicting the services of the Department of Health. The child welfare clinic proved to be as popular as ever and many children were examined by the nurse in charge. The attendant phy-

sicians were Drs. Follinsbee, Louch, Swallow, Adamson, Holmes and Follinsbee, all of whom gave their services free of charge.

One of the outstanding features of the exhibit was the display of work of the Provincial Hospital at Ponoka and the Provincial Training School at Red Deer. This display, the best of its kind ever shown by these institutions, elicited very generous praise from those who viewed it. Practically all the articles shown were sold and orders which were taken for work will require many months to fill.

The emergency hospital again provided one of the busy spots of the fair grounds and many patients with minor injuries were attended to by Miss Grant, P.H.N. and her staff of nurses.

Alex. Ross Heads Compensation Board

The appointment of Alex. Ross, former Minister of Public Works in the Alberta Government, to the position of chairman of the Workmen's Compensation Board succeeding John T. Stirling, who recently resigned on account of ill-health, has been announced by Premier Brownlee. It is felt that Mr. Ross' administrative experience and familiarity with workmen's compensation legislation will particularly qualify him for the duties of his new position which he will assume on Monday next.

Winter Wheat Harvest Starts. The first report of winter wheat harvesting this season comes from Chin, near Lethbridge, where on Friday, July 27, five binders started cutting on the farm of John Ross. The crop promises a heavy yield, although reports indicate that the dry weather during the month of May in some southern sections will be reflected in a slightly decreased yield of winter wheat as compared with last year's crop.

Spring wheat cutting is expected to start in about three weeks, as early fields are beginning to color. The prospect of a highly satisfactory yield of this crop is very promising.

WEED CONTROL

(Continued from Page 1)

a staff of competent, specially trained men who are willing and able to advise on matters pertaining to weed control. The extent of the weed control staff's effectiveness depends to a great extent on how much the public avails itself of the services offered and the amount of cooperation between the public and this staff. It is the wish of the Provincial government to make this branch 100 per cent. effective and it is hoped that everyone will make the best use of the organization.

Removed to a certain extent from the chain of responsibility is the Advisory Weed Committee. Legislation passed at the last session provided for this committee. This body is composed of seven members, who represent the Alberta Seed Growers' Association, the U. F. A., the Wheat Pool, the Organization of Municipal and Dominion Experimental Farms, the Unorganized farmers and the Provincial Government. As the committee's name implies, its work is purely of an advisory nature and it is not necessary to say more about it here.

Last but not least we come to the fighting members of the weed control effort—the men on the land. Let me define the man on the land to be the owner or occupant of any land, and include in the word land parcels

varying in size from a fraction of a village, city or town lot, to the largest parcel held by any company, government or individual. There has been no difficulty in defining the duties of the officials of the weed control service, but the duty of the individual offers a broad and somewhat complicated field. As the writer sees it, the man on the land has a duty to himself, a duty to his neighbor, and a duty to posterity. In fairness to himself, an occupant of land should so manage his land that it brings him a maximum return. In fairness to his neighbor, he should see that his operations cause no damage or loss to his neighbor. In fairness to posterity, he should see to it that his land is maintained in such a way that it will be a help, not a hindrance, to those who will follow him. It is obvious that a man on the land who allows his land to become polluted with noxious weeds is injuring himself his neighbor and posterity.

Many people consider that it is the duty of the Provincial Government to detect and destroy all the weeds in the province. Another will say that as owner of land he is privileged to do what he pleases with that land and the government should adopt a "hands off" policy entirely. To arrive at a reasonable conclusion as to what the Provincial Government's duties are, we must turn to the "Noxious Weeds Act" as this is the tangible expression of the opinion of the duly elected representatives of the people. Since an act exists, it is the first duty of the government to administer the terms of this Act. A close study of the Act shows it to be a piece of legislation drafted for the protection of property. The main criticisms made by objectors to this Act is that it interferes with a man's personal liberty in that it provides penalties for the man who feels he should be able to do what he likes with his own land. This Act is not directed against the good farmer who is doing his best to combat the weed menace, but is designed for his protection. The writer knows of no other duties provided for by statute or otherwise for the Provincial Government. In appointing Field Supervisors who act in the dual capacity of weed Act administrators and advisors on weed problems, the Government has done so in order that persons affected by the Act may not only be acquainted with the terms of the Act, but will be provided with information that will enable them to avoid penalties by the adoption of weed control methods into their system of farming.

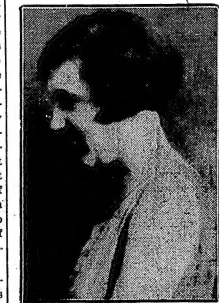

The attitude of many of us towards supervisors and inspectors leaves much to be desired. It is human nature to resent criticism and the pointing out of our faults, but who is willing to advise on the best way to correct them. Let us not wait for the inspector to find our noxious weeds, but be our own inspectors for who is in a better position to detect weeds than the man who in the course of his field operations, crosses and recrosses every foot of his land several times each year?

It would be well to impress on the newcomer to this country the necessity of becoming familiar with the weed problem in this province. Many of our weeds are of European origin and will be readily recognized by a great many experienced European farmers, but it must be born in mind that in this province, agricultural methods and climatic conditions are so different to those existing in other lands that weeds which may be easily controlled in the British Isles, for

example, are particularly difficult to control here.

In conclusion, the writer wishes to point out one way in which we can benefit by the experiences of the older provinces. Some weeks ago, in order to obtain information on the weed question, the names of five or six farmers in a well known district of another province were obtained more or less at random. Certain questions were asked and for the most part varying answers were received, but each farmer volunteered the information that their trouble was due entirely to the fact that in the early stages of its arrival in the province, perennial sow thistle was not recognized as a serious menace. Another farmer stated that the effect of sow thistle were worse than the combined bad effects of frost, hail, drought, freight rates, elevator charges, and other things which are rightly or wrongly termed pests. We have a serious situation to face. Recognition of the situation is half the battle. Let us put forth our best efforts. Let us couple up the farmer's well known ability for hard work with the methods tested and approved by skilled farmers and trained technicians and endeavor to avoid the unhappy experiences of the older provinces.

Theresa Sheehan
Dramatic reader with the Sheehan Concert Company.

RUSSIAN COSSACK CHORUS APPRECIATED BY ROYALTY

This is the first Canadian tour of the Russian Cossack Chorus, consisting of twelve male voices under the direction of Sergei Socloff, which appears here on Tuesday evening, August 7th. They have toured the whole of Europe, the Republics of South America, and the United States.

In 1920 Sergei Socloff organized this chorus. Their first appearance was at the Royal Conservatory of Milan, Italy, where they won laurels and the high appreciation of the most serious critics of Italy. They remained one year in Italy, visiting all the principal cities, and won three gold medals of the Royal Theatres. The succeeding year they visited Paris and won new triumphs of artistry during the French concert season.

While in Spain H.M. The Queen visited all their concerts and personally congratulated Mr. Socloff on the success achieved by his chorus.

SEDEGWICK WHITEWASHED

Camrose, Alta., July 28.—After giving a quietus to Ponoka Friday evening in the Camrose Exhibition baseball tournament, Blackie entered the semi-finals Saturday afternoon against Sedgewick and applied the whitewash brush to the opposing team, forcing the Eastern Alberta team to hang up a line of eighths as against a total score for Blackie.

week, the Edmonton Journal said: China is being remodelled. She has stood the test and is coming out economically sound and educationally progressive, the speaker continued.

When she fully awakens she will co-operate with other countries for international good. In the new order, Chinese are prepared to live that they may help their fellowmen to live, said Dr. Hsieh.

The speaker, who is a scholar of international affairs, punctuated his address with sparkling bits of humor in charming English, making recurring reference to "Canadian and American slang." The lecture was preceded by an artistic concert program by the Sheehan Concert company.

ESSAY ON HEADS

The following is an essay on "heads" sent to "The News" by an eight-year-old Rabbit Hill school boy. Here is the essay:

"There are lots of kinds of heads—red-heds, wooden heds, soft heds, cabbage heds, bauld heds and so 4th. Pa has one, it's bauld. Ma's long heded and pa's bauld heded, but I'm red heded and I've heded, yu bet. The smart end of a boy is his hed (except when he gets spanked), but the smart end of a bee is not there—oh, no! Pa says if a fellow has a hed he will get aled in the world, but I don't want a hed like he gets, when he goes 'out with the boys.'"

Strathcona News.

THE LAST STRAW
A well known actor was playing a round of golf with an elderly clergyman, and things were not going very well for the latter.

The minister was off color, and fortune smiled on him not at all. He became more and more depressed as the game went on, until finally the actor

remarked cheerfully as he put away his clubs:

"Never mind, sir: One day you may be burying me, you know."

"Wee, what's the use of that?" exclaimed the clergyman. "Even then it'd be your hole."

Wetaskiwin, Alberta

SPORTING NEWS

INNISFAIR HERE TONIGHT
PROVINCIAL CHAMPIONSHIPS

The Innisfair ball team will be here tonight for the second game of the Provincial baseball series. They won the first game on their own diamond by a good margin, but as the best two out of three games count, the locals are out to even matters up tonight and force the southerners to a play-off, with a third game on neutral territory. Tonight's game is called for 6:30 sharp, and a record crowd is expected at the ball park.

SUCCESSFUL STAMPEDE
HELD AT GWYNNE

A successful stampede was held at Gwynne on Wednesday and Thursday of last week. There was a good attendance on the first day but the crowd was not so large on the second day.

The following are the results:
Saddle Riding—1, Leo Watrin, High River; 2, Lewis Gordon; 3, J. McKnight and Casey Patterson.

Bronc riding with loose rope—1, Dewey Traub, Hay, Wash; 2, Jimmy Mooney, Calgary; 3, Jack Hill, Calgary.

Steer Decorating—1, Lewis Gordon, Halkirk, 15.15 sec.

Wild Cow Milking—1, Jack Hill; 2, Jack McKnight; 3, Casey Patterson.

Maverick Race—Chelvyne Kaiser, Oregon.

Wild Horse Race—1, Jack Hill; 2, Milo Webb; 3, Ray Deminger.

Calf Roping—1, Ed. Mason, 29.45 sec.; 2, J. McKnight, 52.35 sec.

Hay Lakes won the ball game against New Serepta.

A bovery dance was held each evening, and a large number turned out to indulge in this popular pastime.

WETS DEFEAT NEW
NORTHWY IN LEAGUE GAME

In a Battle River league game on Tuesday the Wetaskiwin Moose-egregation defeated New Norway by a score of 4-1. The locals had Goldworthy on the mound and he hurled a good brand of ball, while the visiting twirler also put 'em over in good style.

Some good plays were pulled off in the encounter, New Norway staging a mazy double play, while the locals had an "at home" with the flies that came their way. The game was a pretty good one to watch, although some of the players showed a tendency to sleep on the sacks at times.

Erratic heaving on the part of the locals gave the visitors the chance to score.

The Wets scored one in the first and third innings and two in the fifth, while New Norway scored their lone run in the fifth.

The game was called in the eighth owing to the moon coming up.

Score by innings—
New Norway 0 0 0 0 1 0 0 0—1
Wetaskiwin 1 0 1 0 2 0 0 4—4

"When two people like the same things the married life is bound to be happy," stghed the romantic girl.

"Well, you and Herbert ought to be happy," remarked her friend, who wanted Herbert and didn't get him.

"I know you love him and I notice he is very fond of himself."

CANADIAN BOY IS 100
METRE OLYMPIC KING

Olympic Stadium, Amsterdam, July 30.—A Canadian schoolboy from British Columbia, Percy Williams, sprang from obscurity to fame today by beating the world's greatest sprinters in the Olympic 100 metres final in 10.4 seconds.

Williams was off to a brilliant start and successfully withstood the closing drive of London, the British negro, leaping across the finish line with a sensational swoop to win by a full yard. London was a step ahead of George Lamers, Germany. Wykoff, United States, was fourth.

There was a dispute about fifth and sixth places, the judges tentatively placing Legg, of South Africa, fifth, and McAllister, of the United States, in the sixth place, pending development of pictures of the finish.

GENE TUNNEY WINS THROUGH
STAMINA; OLD-TIME SKILL

Yankee Stadium, July 27.—Gene Tunney won from Tom Heeney, of New Zealand, at the Yankee Stadium last night by a technical knockout. Tunney came back to the ring from ten months of idleness to prove that he had lost none of his stamina or skill. He fought like a master of his art and outclassed his challenger in everything except height.

Heeney was no match for Tunney. He was out-boxed, out-speeded, out-thought, and out-fought. From the second round on, it was evident to those in the press seats and must have been evident to the sixty thousand spectators that the sturdy Anzac had no more chance than has the bull with the butcher.

NOTED LECTURER WILL
APPEAR WITH CHAUTAUQUA

Mrs. D. Pirlo Beyea, is eminently qualified to deliver her lecture "Education or Catastrophe?" She has had a rich and varied experience of life; has travelled extensively throughout the world; and was one of the first women to go Overseas in 1914. Her ancestors have been famous in military, diplomatic and commercial affairs of the British Empire.

She now is in constant demand as a lecturer, and is forceful, fluent, and above all, sincere. Be sure and hear her at Chautauqua on Monday evening, August 6th.

SUPERVISION IN RURAL SCHOOLS

Supervising in our rural schools today is almost non-existent consisting only of a more or less hurried visit once a year of the inspector and teacher in little more than informing the teacher, school board and the Department of Education, in a general way of the strong and weak points of the teacher, and the issuance of an inspector's report. Two visits a year at least was a recommendation adopted at the last convention of the Alberta Teachers' Association. Two in-borough visits each year may be desirable but this will not and can not begin to meet the supervisory problems of this province; more supervision rather than more inspection can be effective in raising the general tone and standards of teaching. Supervision demands a visit to many

schoolrooms at least five or six times a year, and in some cases even more than that.

A specific example will serve to illustrate the point—one of the country areas of the State of New Jersey with approximately 105 schools, and a county superintendent and three supervisors, each having 35 schools to visit, which schools are closer together and more accessible than most schools in our rural communities. Here we have experts in the educational field, visiting schools for the sole purpose of improving the quality of the teaching work. They have a free hand to visit wherever help is needed and in the short space of a few months, often visit the same school four or five times, constantly encouraging the teacher. The supervisors are not required to report except occasionally to the county superintendent.

All supervisory work need not necessarily be done in the school itself; considerable amount may be done by correspondence, by using the mails—anything to make the teacher feel that she is not an isolated unit in the system and that others are ultimately and professionally interested in her work; anything to make her acquainted with the work done by other rural teachers; anything to give her a chance under her isolated condition to make comparisons and provide an opportunity to learn from the advice and help of a supervising officer. (Published by Educational Committee of the Alberta Teachers' Alliance.)

APPRECIATION

Gus. Hedra desires through the columns of The Times to sincerely thank the friends who contributed to the purchase of money presented to him, and which enabled him to pay the doctor's account for attendance upon his daughter during her recent illness. Such kindness will never be forgotten by him.

Ralph: Are you Hungry?
Henry: Yes, Slam.

Ralph: Den Russia to the table and the Bill.

Henry: All right, Sweden my coffee and Denmark my bill.

Here and There

(107) Quebec, Quebec.—The most successful meeting of the Canadian Seed Growers Association, closed at the Chateau Frontenac on Saturday, June 16th, with a record of 100 per cent. The delegates from all Canada, given as follows: Wheat, 77,919 bushels; oats, 55,815 bushels; barley, 16,637 bushels; and alfalfa, 10,745 bushels.

Montreal, Quebec.—Fur prices have advanced since the early spring, as reflected in the three-day fur auction sale recently concluded here. Nearly 50,000 ermine pelts for dessert. Thus, for the level of the previous sale, with a top price of \$3.80; mink was also up 20 per cent. with the highest sale at \$46.50, while wolf pelts brought a ten per cent. advance over the price level of early spring.

Canadian dinners in the Old Country are not considered complete without Canadian ice cream for dessert. Thus, for the 10th Commissioner's annual dinner in London on July 20 two eight-ounce tubs of the delicacy were served and these were delivered by Canadian Pacific Express in ample time for the dinner. The same thing was done last October for a special Canadian dinner held at Manchester by the Canadian Trade Commissioner there.

Ottawa, Ontario.—By the end of the season 15 flying clubs will have been established throughout Canada, according to advices from the Air Board. A total of \$170,000 is being spent by the board this year in the promotion of these clubs for civilian flying. Clubs have already been established at Montreal, Toronto, Ottawa, Hamilton, Halifax, Saskatoon, Regina, Moose Jaw, Edmonton, Victoria and Granby. One at Halifax and another at London are about to enter the list.

Transportation of small but valuable packages by air from Canadian Pacific liners at Rimouski to Montreal and Toronto, there being saving about 24 hours in time is becoming increasingly popular. After Montreal, Toronto, London and Chatham, Guelph had its turn with a parcel of Irish linens going to a department store there and the shipment being welcomed by Mayor Robson and other prominent citizens of the town. These parcels are handled by the Canadian Pacific Express Company.

A tablet in memory of men of the Seventh Royal Fusiliers who served with the Quebec garrison during the siege of 1775-76 by the Americans under Montgomery and Arnold, was unveiled on Dominion Day on the Wall of the Chateau Frontenac by His Excellency, the Governor-General. Present at the ceremony were officers of the Fusiliers from England and a detachment of the Canadian Fusiliers of London, Ontario, who are affiliated with the English corps. The Chateau Frontenac occupies the site of the old Fort St. Louis which was the military headquarters during the siege.

Inspection of the "Duchess of Bedford," new 20,000-ton Canadian Pacific liner, which recently made her maiden trip to Montreal, at once disclosed the extraordinary suitability of these "Duchesses" for tropical travel. Ventilated under the hull-Louvre system of individually controlled outlets, cool air is forced under gentle pressure to every part of the vessel. Broad sun-decks and an open-air swimming pool add to the luxurious appearance of the ship and it has now been decided that the "Duchess of Athol" shall be used on the South America-South Africa cruise next year.

MUSICAL PROGRAM BY
ARTISTS DUO DELIGHTED
CHAUTAUQUA AUDIENCE

Piano selections, tenor solos and dramatic readings made up the very attractive program which was given by the Artists Duo, Lowell Patton and Fenwick Nowell, at the Canadian Chautauqua on Wednesday afternoon. Humorous and popular selections were varied in a delightful way so that they appealed to young and old alike—Edmonton Journal.

Be sure and hear this same program at the tent on the school grounds, Monday afternoon next.

MOOSE LODGE INSTITUTED

Leduc Lodge No. 984, Loyal Order of Moose of the World, was instituted on Wednesday evening at Leduc, in the Elks hall, by A. J. Ingram, supervisor for Alberta. The following officers were elected:
Dictator—J. Shoveles.
Past Dictator—F. W. Phillips.
Prelate—Christopher Storey.
Vice Dictator—D. Griesdorf.
Secretary—W. C. Barton.
Treasurer—A. A. Krause.
Sergeant-at-Arms—Gust Dalquist.
Inner Guard—H. Paur.
Outer Guard—E. Grubert.
Trustees—J. W. Armstrong, J. A. Workun, Dr. Woods.

LYRIC TENOR, PIANIST AND
HUMOROUS READER TO BE HERE

The Nowell-Patton Artists, consisting of Fenwick Nowell, Canadian-born lyric tenor, Lowell Patton, pianist and humorous reader, will appear on the Chautauqua program on Monday, August 6th. Fenwick Nowell is an interpretative singer. His voice, his refinement, charm and graciousness of personality, have caused his touring of this continent at least eleven times. Lowell Patton, pianist, has studied under the masters of New York, London, Paris, Berlin and Vienna. He is also a dramatic interpreter and composer.

SUPERVISORY UNITS

What system might be introduced in this Province to provide adequate supervision of schools? The question arises because it is generally recognized that the present system of inspection of schools can hardly hope to solve to any extent the problem of helpful supervision to teachers.

The suggestion has been thrown out that the rural schools board be abolished, local control eliminated, and the whole system handled directly by the Department of Education which would place the teachers and pay them, appoint and direct all supervising officers as is at present the case with the inspectors of the schools. The wisdom of such an undertaking is very gravely open to question. In the first place, centralized system of administration are out of harmony with Anglo-Saxon ideals; we resent intuitively the placing of the whole system of government in any one agency. The whole trend throughout the English-speaking world is to give individuals, groups of individuals or communities a chance to be progressive. Highly centralized systems of education

Backache
Kidney Trouble
Feet Swelled

Mrs. Edith Hagan, Orillia, Ont., writes:—A friend of mine advised me to take Doan's Kidney Pills as I was very bad with my kidneys. My back ached all the time when I did any housework, and my feet were swollen at times. I took three boxes of the Pills and am feeling fine again; my back feels good and my feet don't swell any more. I will always recommend Doan's Kidney Pills highly for what they have done for me."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The T. M. Burns Co., Limited, Toronto, Ont.

VOTERS LIST 1928-1929

Notice is hereby given that the List of Electors for the City of Wetaskiwin and the Wetaskiwin School District has now been prepared and copies posted up in the following places: City Office, Bank of Montreal, Imperial Bank, Star Store, Wm. Gibson's Barber Shop and the U.F.A. Store.

All those who are qualified and entitled to vote at the Municipal Elections of the City of Wetaskiwin are requested to examine the list at the above mentioned places. Any whose name does not appear on any person whose name appears and who challenge or objects to the name of any other person appearing on the List may give notice to the undersigned Registrar to have the List amended.

Such Notice must be given on or before the 14th day of August. The City Council will sit at a Court of Revision on the Voter's List on Tuesday the 28th August, at 8 p.m., in the Council Chamber, when the list will be finally revised.

Given under my hand this 31st day of July, 1928.
J. E. FRASER,
Registrar of Electors for the City of Wetaskiwin.

"Stands Scotland Where It Did?" Aye, Laddie!

SCOTTISH PIPER BAND AT BANFF

SWORD DANCE
CANADIAN ROCKIES"Stands Scotland where it did?"
Yes, indeed, during the period from August 31 to September 3, when it will seem to have been transplanted overnight to a new Highland laird in the Canadian Rockies. The occasion is the Highland Gathering and Scottish Music Festival, to take place a second time at Banff, Alberta, with headquarters at the Banff Springs Hotel. Songs that the Scots have sung for seven centuries, and

marital bagpipes he has played even longer, will again resound in the Canadian Rockies, making Banff resemble its namesake in Auld Scotia. Initiated last year under the patronage of the Prince of Wales, this festival has quickly established itself as a Canadian institution, with regimental piping contests, athletic games, folk songs and Highland dances—all as old as Scotland herself. Notable among the musical features arranged by Harold Buxton Key, musical director of the Canadian Pacific Railway, is the special performance of "The Jolly Beggar," a cantata with text by Burns and music by Sir Henry Bishop. At the daily concerts in the hotel ballroom notable Canadian artists will sing the folk songs of Scotland, and Scottish Canadian lairds will join their laddies to the Highland fling, sword dance, the sea-laird's hornpipe, the Scotch reel and the graceful sean triobdas.

The programs of Scottish music are drawn up in historical sequence, beginning with the old ballads of the 15th, 16th and 18th centuries, followed by groups from the period of Mary Queen of Scots, the Stuarts and the Jacobites, selections from the songs of Burns, Sir Walter Scott, Lady Wallace and Christopher North, as well as the modern music recently made popular by Margaret Kennedy and Francis.

board and appoint its own teachers and supervising officers, with powers of self-government over which the Department of Education might have rather broad discretionary powers of control. If this were finally decided upon, rural school and teachers would lose much of their present isolation; the teachers would be brought into fellowship with the entire teaching force throughout the county, working in sympathy and co-operation with and under the guidance of specialists. The system of supervision would then really supplement the work of normal schools and each unit would have an incentive to raise its schools to the highest possible degree.

In Great Britain and in many parts of the United States there are county units which vary greatly in size and number of schools under their control. It is where the strong form of county control exists with some degree of government control, that the teaching service is best performed. It is here, obviously, where the best systems of supervision prevail and it is generally recognized that no way of improving the teaching service in

At the same time the Alberta Amateur Championship meet will crown the victors in the 100 and 200 yard races, weight-throwing, tug-of-war, high and broad jumping, tossing the caber, shot putting and discus and javelin throwing. The regimental pipers from all over the Dominion will compete for the prizes offered by J. W. Beatty.

At the same time the Alberta Amateur Championship meet will crown the victors in the 100 and 200 yard races, weight-throwing, tug-of-war, high and broad jumping, tossing the caber, shot putting and discus and javelin throwing. MILLET LOCAL NEWS

Mr. J. J. Anderson is building a new residence.

Mr. Joe Moonen was a visitor last week at the home of Mrs. Moonen's parents, Mr. and Mrs. C. Aske.

Mr. and Mrs. Frank Coles motored to Cooking Lake on Saturday for a short visit with Mrs. Coles' brother.

The next meeting of the Women's Institute will be held at the home of Mrs. Cohen on Wednesday, August 8. Everybody welcome.

Mr. and Mrs. Alfred returned to Calgary on Sunday, after spending a week as guests of Mr. and Mrs. Victor Scott.

Mrs. C. A. Kent returned on Wednesday of last week from Edmonton, where she had spent a week at the hospital.

The Dowler warehouse and implement building has received a fine new coat of paint at the hands of painter Ira Benham.

Mr. and Mrs. Ed. Rudolph and family expect to move into their new house before long, as it is being rushed to completion.

Mr. and Mrs. Donnsworth of Duffield, Alberta, returned home on Tuesday after visiting at the home of their daughter, Mrs. Rudolph Littman.

Mr. Max Ross, who has been employed in Barth's barber shop for the past year, left last week for Leduc, where he will remain for a short time.

The ice cream and lawn social held by the Women's Institute at Mrs. H. Arnold's on Wednesday, July 25, was a big success, adding about \$20 to the treasury.

The new residence of J. C. Wagner is nearing completion and will be ready for occupation in a short time. Mr. Frank Violet is superintending the construction.

E. M. FURLONG QUILTS THE RAIL BUSINESS IN MILLET

With a \$15,000 stock of merchandise, consisting of hardware, groceries, dry goods and men's goods, Evely, the sales wizard from Calgary, promises "quick action" and "low prices" on Furlong's stock.

The Closing-out Sale opened last Saturday, and judging from the prices of the goods in the big page advertisement, the stock will change hands quickly at the Furlong's Closing-out Sale. All the harness, halters, collars and leather goods are included in the close-out campaign, and every effort will be made to rid the Furlong store of all stock in the next 30 days.

Everything is marked in plain figures and every price is reduced, some lines to cost and many more lines at below cost. The sale will stop when all the stock is sold out.

This is the biggest mercantile event in the annals of retailing in the town of Millet.

All come, all buy, and as Evely himself, says—"Early buyers get the best choice." Furlong's quilts the rail business in Millet. See full page advertisement for close-out prices.

SLEEP DEFIES RULES

Edison, apostle of work and advocate with Roosevelt and others of the strenuous life, admits that he has been compelled to slow down in his daily grind. For years he spent eighteen and twenty hours a day in his laboratory, sleeping only four hours.

The need for sleep varies with the individual. Babies sleep most of the day and night, and children can use nine or ten hours profitably. Some adults find six hours sufficient while others insist they require ten. A few experiments would determine the need in each case, and also prove that there is such a thing as too much sleep.

The eight-hour rule is an instance of standardization which is not altogether satisfactory, but is a safe one to follow.

Mr. Edison is more fortunate as a worker than as a teacher. Those who tried to follow his injunction to limit sleep, soon found it an expensive practice. The body and brain need re-education and need adequate opportunity to recharge themselves with energy is denied.

Greedy

Prisoner: I'm sorry, my lord, I took the money; but you know the more a man gets the more he wants.

Judge: Well, you are getting seven years! How much more do you want?

Q.—Why do folks walk down a country road on the right side instead of walking on the left side so they can see approaching vehicles and try to avoid them?

A.—Most people do not stop to think but follow the rules for vehicles. A great many avoidable accidents are caused in this way.

THINK IT OVER!

A Kind Word often does More Good than a Large Gift.

MILLET RESIDENTS' PASSES

There passed away in Wetaskiwin on Saturday, July 28, Mrs. Ellenbeth Parker, wife of Mr. J. H. Parker, of Millet.

The late Mrs. Parker was born in Sussex, England, and came to Canada twelve years ago and has resided in the Millet district since that time. The deceased lady had been in poor health for the past year and had failed steadily for the past couple of months. She was aged sixty-eight years, six months and twenty-two days and had until a year ago enjoyed good health. She was a member of the Anglican Church and was always active in the work of the Women's Auxiliary.

Mr. Parker, with her husband, has been a resident of Millet for many years and will be greatly missed among her many friends.

There remain to mourn her loss, her husband, Mr. J. H. Parker, two daughters—Mrs. Carl Rogne and Miss Edith Parker of Los Angeles, and four sons, A. H. Parker of Millet, B. M. Parker of Wetaskiwin, Frederick and James Parker of Los Angeles.

Funeral services were held from the Anglican church on Monday afternoon, and interment was made in the Millet Cemetery. The services were conducted by Rev. P. O. Wade of Wetaskiwin. There were many beautiful floral offerings.

Funeral arrangements were in charge of E. Moore, funeral director.

Mr. T. J. Jovae of the Coal Lake district, left last week for a trip through the Peace River country.

The group of Millet girls, with Mrs. Fred Stanley and Miss Mollie Plant, returned from camp at the lake last week. They report a splendid time—no mishaps, good fishing, and a general rejuvenation.

ONLY A DAD

Only a dad with a tired face,
Coming home from the daily race,
Bringing little of gold or fame
To show how well he has played the game.

But glad in his heart that his own
rejoice
To see him come, and hear his voice.
Only a dad of a brood of four,
One of a million men or more,
Plodding along in daily strife,
Bearing the whips and scorns of life,
With never a whimper of pain or hate
For the sake of those at home who wait.

Only a dad, neither rich nor proud,
Merely one of a surging crowd;
Tolling, striving from day to day,
Facing whatever comes his way;
Silent whenever the harsh condemn—
And bearing it all for the love of them.

Only a dad, but he gives his all
To smooth the way for his children
small.

Doing with courage stern and grim
The deeds that his father did for him,
This is the line for him to pen—
Only a dad, but the best of men.

The Wooden Indian

A Poor Old Wooden Indian, all battered by the years, was seated on a pile of junk and shedding briny tears.

"What hurts you?" asked the Teddy Bear, "why are you thus distressed? Why do you tear your willow hair, and smite your basswood breast?"

"Alas, my occupation's gone," the Indian replied; "cigar men now refuse to keep red warriors outside; I used to stand in pomp and pride before a stogie store; but times have changed, and those glad days will come to me no more. I'm waiting here among the junk in mournful solitude, till some one breaks me into chunks to use for kindling wood." "Cheer up!" exclaimed the Teddy Bear, "don't break your heart, old sport! You yet may have a chance to serve as jurymen, in court."

—Walt Mason

ASK ME ANOTHER

Q.—Why do most ladies and a lot of men swing their cars out to the left just when they are getting ready to make a right-hand turn?

A.—For the same reason that a dog turns around three times before lying down.

The janitor's little boy, very black, was nicknamed "Midnight" by his white friends. He didn't mind their calling him that, but when one day one of his own race exclaimed "Hello, Midnight!" he retorted indignantly: "You see jes' about quarter to twelve 'yest."

A hotel proprietor, hearing of the whereabouts of a guest, who had left without paying his bill, sent him a note:

"Dear Sir,—Kindly send me the amount of your bill, and oblige," etc. The delinquent replied:

"The amount is \$10.—Yours, etc."

Be Here When Doors Open

R. COHEN

HILLSIDE

Mr. and Mrs. W. E. Pritchard and children of Edmonton, were Sunday visitors at the home of Mr. and Mrs. E. R. Hoskins.

Mr. and Mrs. T. H. Howes and family were visitors in the Pattence district on Sunday.

The U.F.W.A. are holding their August meeting at the home of Mrs. T. H. Howes on Thursday, the 2nd.

Mrs. F. Gansko has been removed to an Edmonton hospital for medical treatment.

A number from the district attended the W.A. social at West Liberty on Wednesday evening last. All report an enjoyable time.

Miss Gladys Manders returned to Edmonton on Monday, after a fortnight's visit at "Devonia Farm."

A distressing accident occurred on Saturday when a team attached to a hay rack driven by W. Webb bolted. Mr. Webb was thrown off and dragged several rods, receiving a number of bad bruises and cuts, which will confine him to his bed for several days.

Mr. Robert Day of Edmonton, accompanied by Masters George, Reg and Frank, were visitors at the home of Mrs. G. Bolt on Saturday. Mr. Day returned home in the evening, leaving the boys to spend the remainder of the holidays in the district.

BEING A SPORT

(Walt Mason)

Yes, I try to be a sport, men's approval I would court, but it often is a strain such an effort to maintain. When I go to pay my tax, taking hard earned coin in sacks, I am truly full of care and would like to pay the air, for I feel my face is ground by an invisible ungodly; I've an impulse to urinate, but rebellion in my eyes, to insist it is a crime that we're taxed so all the time. But I've noticed that the gents who put up such sad lamentations with a high degree of grit, do not seem to make a hit. "They are misers," people say, "they are cheap in every way; they'd enjoy a government that has all the virtues but, but they think it is a frost when they help to pay the cost. They are pikers, small and vile, or they'd pay up with a smile." I'm afraid my neighbors might think me such a tinhorn wight if I waved a battleaxe when I came to pay my tax. To the tax collector's den, I convey my iron men, and produce them with a grin of the kind that's sure to win. And the tax collector cries, "You're a sport, dad, bring my eyes; in this world of ten-cent days, blessed is the man who pays with a smile that naught can wreck, winding twice around his neck. In this world of rigid feet it's a boom, so help me Pete; noble is the man who digs up the minted thing-me-jes, plunks his hard earned money down, with no symptom of a frown."

This was all the virtues but, but they think it is a frost when they help to pay the cost. They are pikers, small and vile, or they'd pay up with a smile." I'm afraid my neighbors might think me such a tinhorn wight if I waved a battleaxe when I came to pay my tax. To the tax collector's den, I convey my iron men, and produce them with a grin of the kind that's sure to win. And the tax collector cries, "You're a sport, dad, bring my eyes; in this world of ten-cent days, blessed is the man who pays with a smile that naught can wreck, winding twice around his neck. In this world of rigid feet it's a boom, so help me Pete; noble is the man who digs up the minted thing-me-jes, plunks his hard earned money down, with no symptom of a frown."

He speaks, and when I go all my being is aglow. Sportsmanship, though based on fear, gets plaudits far and near. Fear of what my friends would say makes me smile when I would pray.

Sam sat on the sunny side of the tree, the perspiration running down his face. "Boy, why don't you all seat yourself on the shady side," his friend asked him.

"That's all you know 'bout nature," replied Sam. "By and by sun's going to be on that side, and then Ah won't hab to move."

WHOLE FAMILIES DIE IN EPIDEMIC IN NORTH AMERICA

Edmonton, July 28.—Travelers who have arrived here say that some form of a disease akin to influenza is taking a terrible toll among the Indian and half-breed communities of the north. So far white persons have been largely immune to it, although there have been some cases of infection, but among the Indians whole families have been attacked at once. Instances are known, say the reporters, of whole families having been struck down to die in their teens. At Fort Resolution alone there have been 27 deaths from the disease, and because of the scattered settlement and the slowness in the receipt of reports, it is considered unlikely that the full toll will be known for some considerable time.

Gas on Stomach
After Her Meal's
DREADED TO EAT

Mrs. Oscar Burtan, McArthur's Mills, Ont., writes:—"I was badly bothered with gas on my stomach right after my meals and I dreaded to eat at all. A friend advised me to take

BURDOCK BLOOD BITTERS

so I got a bottle. I can highly recommend it to every one, as in a short time my sour stomach disappeared. B.B.B. is a wonderful medicine."

Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

Another Firm Out of Business---

Just one of the news items which are appearing in papers quite too often these days throughout the Dominion. And what is the reason? There is only one, and that is lack of loyalty to home institutions and the lure of the flashing publicity of the large city establishments. Many citizens, while earning their wages and salaries in one place, never the less send a large proportion of this money out of the community for questionable bargains, thus depriving such community of that much necessary working capital.

Business Men Do the Same

They have local firms who are able and ready to supply them with all their requirements, yet for the most trivial reason or excuse they will consent to extend this patronage to outside firms, thus helping to build up distant cities at the expense of their home town. They seem to forget that this money so sent out might otherwise have been largely returned to them by those with whom they should have left this business. Therefore, when in need of printed matter of any kind, whether farmer, business man or professional man, always extend first consideration to

ANNOUNCEMENTS

***Do not fail to see the picturization of Dumas' great novel "The Count of Monte Cristo," at the Angus Theatre on Friday and Saturday of this week. Regular prices.

***Get your films developed at Cooke Drug Store. Their photographer has a new up-to-date machine which puts a nice border on your prints at no additional charge.

***Reserve Saturday evening, August 4th and the afternoons and evenings of Monday, Tuesday and Wednesday, August 6, 7 and 8 for Wetaskiwin Chautauqua. Read the references to the different programs elsewhere in this issue, and be sure to be present as these will be the best entertainments ever given in Wetaskiwin.

***"The Last Command" is one of the most powerful pictures ever filmed. It deals with the fall of the Russian aristocracy. Emil Jannings takes the part of the Czar's cousin, commander of the Russian forces at the war front. Feature will be shown at 8 and 10 p.m. on Monday and Tuesday August 6 and 7 at the Angus Theatre. Regular prices.

***New shipment of Price's Canning Compound at Cooke Drug Co., 15 cents package, 7 for \$1.00.

The Times does commercial printing at right prices.

Neighborhood NEWS

FALUN

Mr. and Mrs. T. S. Steedman, Mr. and Mrs. E. N. Rattray, Mr. and Mrs. C. Isaacson and their families spent Sunday at "Point Plenty," enjoying a lovely chicken dinner, not to mention the delicacies that were served.

W. C. T. U.

Great needs and great wastes. China has sent out a plea for \$10,000,000, starving people, and the annual report 900 for immediate help to save 900,000 of the Provincial Liquor Boards of B.C., Alberta, Saskatchewan, Manitoba, Ontario (9 months) and Quebec show that the expenditure for liquor was something over \$150,000,000.

"Arrests for drunkenness in Montreal during 1927 were 50% greater than in 1926; of late a number of girls of good families have been found in dives, and the evil arises from the blind pigs, Ald. A. A. Desroches declared today at a meeting of the City Council." Have voters forgotten the assurance that Government Control was a dead-end cure for "dives" and "blind pigs"? The scheme which makes the home a bar-room has its immediate evil tendencies, but the harvest of education is only beginning to count.

After twenty-seven years of prohibition history, P.E.I. continues its policy of strengthening its dry laws by notice given to the Provincial Legislature of seven such amendments. Are we reading the lesson of preparedness which has been taught and proven by our sister of the Gulf?

The public press announces that the U.S.A. has displaced Great Britain as the greatest lending nation of the world. It may be only a coincidence, but is it that the U.S. went dry on July 1st, 1917?

July 24th, a specially decorated train left London with over 300 delegates for the World's W.C.T.U. Convention at Lousanne, Switzerland. Our province is well represented by Mrs. McKinnay, Provincial President.

BORDER
PRINTS

We are now equipped to print your snapshots with beautiful decorative borders. This style of finishing which originated in California is now very popular all over the U.S.A.

Border Prints are Bigger and Better
THEY COST NO MORE
Than the old-fashioned kind without borders

THE WALIN STUDIO

WETASKIWIN, ALBERTA

If out of town mail your films. Finished work mailed back in less than 24 hours. Rolls developed 10¢, all prints, 5¢.

C.G.I.T. GIRLS HAD
ENJOYABLE CAMP

The "Follow the Gleam" group of C.G.I.T. girls of the United church returned the other day from a very pleasant and profitable camp at Mac-O Beach.

Mrs. A. L. Elliott, assisted by Mrs. J. E. Buchanan, and Miss Jennie Fear were in charge.
A definite program was followed, starting with the rising bell at 7 a.m. Shortly after that the girls were for their morning dip. Breakfast came at 8. From 8:30 to 9:15 saw a busy camp, dishes to be washed, vegetables to be prepared, wood and water carried and tents ready for inspection.

Mr. Elliott conducted the Bible study and anyone attending these quiet hours will never forget the "Girls of the New Testament."

After this came group singing and one had only to hear the lusty way in which this was carried out to realize that it was a happy, healthy group who were participating.

Then all into bathing suits and a good time in the water. From then until dinner the time was usually spent in learning to row a boat.

After and hour's rest—which one of the girls remarked was the only hard work they had to do—came sewing. The group is starting a baby's layette for one of the mission hospitals, and some of the sewing was done at camp. Willetta Armstrong and Mary Beamish received first and second prize for sewing. Mrs. Poole and Mrs. Williamson acted as judges. While the girls were sewing one of the leaders read "Pollyanna."

Following the afternoon swim the time was spent in games, gathering wood for a bonfire or any other form of recreation.

The evening was taken up with bonfire parties, hikes, etc., and after singing "Taps" the girls literally "hit the hay."

CHAUTAUQUA NOW HAS
MUCH BETTER PROGRAMS

The ever-increasing success of co-operative movements in the Dominion of Canada is a well known fact. The Canadian Chautauqua, as a co-operative movement, has shared in this conspicuous success. This year two new circuits will be added to those already in operation, which means that at least one-third more the number of towns served last year will have the Canadian Chautauqua service.

Something like twenty-five thousand of the leading citizens west of the Great Lakes are earnestly co-operating in order that they may meet the

needs of the people through the medium of this institution. Even in the larger centres of Eastern Canada Chautauqua has proved to be a means of contributing to the higher well-being of the people. Successful Chautauquas have been held in St. John, Halifax, Ottawa, Montreal and Toronto, but even those centres cannot boast of the success attained by Winnipeg, Calgary, Edmonton, Moose Jaw, etc. In fact, so great have city Chautauqua audiences become that Canadian Chautauqua will have to provide new tents approximately more than twice as large as former tents used, in order to accommodate the increasing numbers that are anxious to enjoy Chautauqua programs. Something like three thousand people attended the evening sessions of Chautauqua in the city of Winnipeg last year. This naturally means that smaller communities have received the benefit of better Chautauqua programs because of the co-operation of these larger centres.

ENJOYABLE PICNIC

The Zion Lutheran Sunday school spent an enjoyable day at Pigeon Lake on Thursday last, and were the guests of Mrs. Chris Schmidt. The day was an ideal one for an outing. The youngsters seemed to get a lot of enjoyment out of fishing with a

bent pin, and although they caught no fish, they "nearly caught" quite a few if numerous emphatic shouts could be believed. The perfect day was partly spoiled by a blow-out on the way home and it was midnight until repair had been effected and the last lap of the trip completed.

The Scotch Of It
"Come at once! Our wee bairn has swallowed a saxepence," an excited Scotchman telephoned a doctor.
"How old is it?" asked the doctor.
"1894," answered the Scot promptly.

Home-Made
Candies

All Kinds at
LIVELY'S
3 Doors West of P. O.

TAKE NOTICE

To Whom it May Concern:

The City Bakery

is NOT in the market
for STALE butter,
eggs or lard

We use only the best-grade of creamery butter, eggs candied by an expert and guaranteed pure shortening

For
